

Sept 29, Sunday

Attended Unity. A "splinter group" is holding their own discussion group at 9:30. Chuck didn't seem overly concerned. At sunrise with A. is behind this. A sh well. Divine order. It was good class and a good message. I am convinced that the greater understanding I am gaining that Unity is the key to peace and etc happiness in my life.

~~Remotely for the rest of~~ Went to office and began to clean my desk. Not too bad.

Sept 30, Monday

Up @ 5:00a. Run @ 6 times for life. Felt good. I am glad to be back. I will be very regular this time around.

Good to get back to work although I feel I must resist the temptation to push too hard. Relax. Go slow. Get back into groove.

Gina Logue come in. Got lost in the tulle of her hair and seemed to be a little frazzed. I called off the apt. but she told her to go back to motel. Get more rest. I still feel positive about Gina.

Dinner with Ad Com group. Mel & Charlie. Talked about Ch. 2.

Strategy session re: A.O. Robert F. and D.W. Cole. Good meeting. Going to make a concerted effort in A.O. Gonna do it this time.

Oct 1, TUESDAY

Here I am again. Trying to remember about happened 2 days ago.

Bottle in basement @ work blew up. No serious damage and no one hurt. Hello of an explosion! Were very lucky! ...the power of God protects us...

Oct 2, Wednesday

Lynn Sheldon says his leaving to go to work for Great Empire Industries in Shreveport. Says he couldn't work under R.F. Nip says he feels the same way but isn't ready to leave yet. Sure hope Clyde knows what he's doing. This development may wake us up.

I keep trying to see this from a Unity light. Divine order unfolding for my greater good.

Chinise with Ciria Logue and back. to
Miss every.

Oct 3, Thursday

Well, well. A day of lessons learned. Mind your
own business. Unknown possible. Or, at least don't
be so quick to get involved.

Example: On Wednesday L.S. Confides he has
accepted a job elsewhere. he says he is fed
up with Robert and Ant take it anyone.
Today he decides to tell Clyde the news and
asks me to sit in. He talks about the opportunity
this new job offers. Says this got his problems
with it behind him!

I ask what happened to his anguish of
the day before etc etc.

shit. It listens too much. It should ignore
most of that shit. Civil heard nothing
but bitchy and ~~more~~ moaning about
Robert and Jeff left! Well why don't
they quit. Chinise then there listening to
it. Well only listen where it's my job
to listen.

Example: Ciria wants to work 1/2 day
next week while she settles in. While

She gets her emotions in check! Really. I
need to hand her off to Pat quick.
I am trying to reason people. I let them
convince me things are as desperate as
they say. They are bringing me their monkey.

It had a good talk with Kent Melnoski.
The ad com boys worked on Ch2 and have it
about as good as its going to get. Kent & the engineers
are filing a "Gowdy" of problem
affiliates.

We talked about my role in the effort. I
said I felt I'd been on the front line
of an engineering/satellite problem. And perhaps
I am too close to the problem to be objective.
Kent and I agreed that it is time for me
to step back and let Sat/Eng handle the
problem.

(I must read the care and feeding of monkeys)

Noel was a hearing day. Take care of the things
you can/should take care of - don't take
the monkey!

Oct 4, Friday

Oct 5, Saturday

Oct 6, Sunday

Oct 7, Monday

Page G and Al went to KERN for 60th Ann. open house.

Oct 8, Tuesday

KMRN, Comm. Shelby Hender & Chuck Freed. Good visit. Sat in on talk show. Rapped about LCI.

Oct 9 Wednesday

Met with Kent M., Amy S. & DW Cole. re: Our Great Outdoors. Great brainstorming session. Whole new look @ program and network. (see list of solutions and add D.W.'s Annus option)

The people very upset about plans for new Commission structure. Kent and Al probably did more listening than we should.

Oct 10, Thursday

St. Louis to meet with Andy G. and Al Keith. Al tied up and turns us over to Jeffrey Byrne. Young man who'll be doing most with poll. We worked on Q. for next poll.

Didn't get to discuss commitment for 86 but all indications are "go" for next year. Looks like Andy G. with will be involving Sarah Morrison; Al will have Jeffrey take a larger part and Al'll be using Don McPherson more.

? Also: Andy "mentioned" a 6% increase in cost. Al need to talk with Clyde about how to handle this.

Quia seems to be getting well. The CARE & FEEDING OF MONKEYS article has been very helpful. Bob must care for more more monkeys in coming year. It's a good Unit example of me changing rather than changing others!

Part is still getting awful schedules and is convinced the Asst. Dir. Nurse is playing a hand in this. But the

is being patient and wait for full to take over as head nurse. Divine Order is at work.

Oct 11, Friday

1. Good meeting with RF & KM about sales reaction to new Commission set up. He asked what I'd ask: Don't listen to the tears unless you can help. Send them to Cyck and RF. He's right. I may be very wrong but I don't sense evil here.
2. Performance review with DM. In an event where it I found I was uncomfortable with my review. I rewrote it. Much more positive. Gotta get a better form. Did review some new forms with KM.
3. John R. came in. Found Net & got Bob to autograph. Had lunch. Kurt, Linda, & Dan came by for a few beers Fri. night. Good evening.

Oct 12, Saturday

Shoney for breakfast with John. Bob played Tennis. Toward Capital. Talked some. Good visit. Went to our level and walked around some. Took Pic. John left for his sister.

Paul and I had some napped. Saw worst movie EVER. REMO. The worst.

Dinner @ Ken's Ching.

Oct 13, Sunday

Unity Services. Reading FOOTBALL by Larry Dier. Quiet afternoon. Nap. Watched TOUGH LOVE on TV. Excellent movie. Divine Order.

Oct 14, Monday

Slowly started getting nervous about raising cost of Poll to Calhoun. But I will work thru this fear. And on the other side I will

Be stronger. And better prepared for the next challenge. I ~~will~~ welcome this opportunity to face a challenge and do as well as I can.

And, of course, Divine Order is unfolding. ASK. will agree to the increase. Or he won't. And, either way, it's okay.

Roger Gardner and I visited the open house at KJMS. Really nice studio's. LCI will have such nice studio someday.

OCT 15, TUESDAY

Hil Centers with price increase on Poll. Was really dreading this. No reason to, but none-the-less. I was frightened. But I did it.

~~Oct 16, Wednesday~~ How well remains to be seen. They may or may not go.

Also had to confront G.L. about a huge bill for her Hotel stay. Over 200 in phone calls. Confrontations are difficult but I am able to do it and its easier each time.

Oct 16, Wednesday

Have made real progress in delegating the poll. Dan will do well with it.

Breakfast with CL & DMC re: OGO. CL is convinced it can make money but needs more commitment from us. Will start T.P. on Charance.

CL really down @ 9am meeting. Very negative. Note: When CL in that mood. Show it with Cheryl only. RE looked bad to CL.

Met with Gordon T. @ Land. We made a good decision. He was very positive about the site & is going to start drawing plans.

Talked to Mum & Dad. They doing well.

Oct 17, Thurs

Since its Sunday or F write this, I have to ask myself will I try to keep a journal next year? As it pertains to obsessions? As it any kind of useful history? Should it even be any kind of daily record? Maybe it should only be brought out and reviewed, needed when ever? Or I don't make an entry for a few days - fine.

Oct 23, Wednesday.

Barb excited about TRAIN WITHIN
TRAPS. Lunch @ Rax. She seems
Very confident & positive.

Am more inclined than ever to make
switch to different format for
journal in 1986. Prep efforts at
daily entry of all words and go
with confessions.

Reading Retirement the Corp by John
Naisbet.

But will that mean weeks w/o
entries?? Sigh. Boy its amazing
how obsessive I can get about this.

Oct 29 Tuesday

Oct 30, Wednesday

Lang Hughes from Kilmall visited.
 Len Paul from Springfield.
 Really good Staff Meeting. Such a
 spirit of cooperation. Morale seems
 very high. I guess this is what
 I am most proud of.

Q: Will I keep this daily journal alive thru
 end of year? Am I reviewing my
 goals & cards each day?
 What about daily word?

A: These things are important. I will find
 a way. Maybe with to evening.

I had a talk with Kent M. about my "disturb"
 of him. It was a good talk (for me) and I
 think I handled it well. My up front.
 At least I am not carrying a grudge
 around with me.

one more alternative - a weekly summary
 of events - several pages - typed.
 Maybe from my short notes and ideas
 kept thru the week.
